The Creation of New States and Collapse of Old Empires in the XXth Century

The year 2018 coincides with two important events:

- The 70th anniversary of the establishment of the State of Israel
- The End of WW1 Centenary

This double anniversary offers a wonderful opportunity to discuss both the end of WW1 and the large number of new states which had been created afterwards, and the birth of new states in the context of wars of liberation and independence.
